CHEY-CAST
BULLETS

Chey-Cast Bullets is a family owned business of individuals that have been shooting, casting bullets, and reloading for over 42 years. We have been commercially selling bullets since its inception in 2001. We started casting bullets because of the lack of supply of cast bullets and the high cost of shipping. We have been shooting Cowboy Action Shooting (CAS) matches since 1995 and got tired of paying as much for shipping as for bullets. So we started our own manufacturing and retail Bullet Company.

In the past the Chey-Cast family has participated in Cowboy Action, Steel Challenge, Defensive Pistol, IDPA, NRA Action Pistol, Silhouettes, and 22 Precision and bench rest just to name a few. Beside all of that fun we are avid hunters and fishermen, as well as members of SASS, NRA, 4-H Shooting Sports, Ducks Unlimited, NSSF, A Girl and A Gun, The Well Armed Woman, and the Elk Foundation.

We are proud to have sponsored a variety of shooting sports club matches throughout the years and look forward to continuing our support of Shooting Sports organizations.

We have been at the same location in Cheyenne, Wyoming, for the past 38 years and plan to be here for many more years serving your bullet needs. Since this is a family business many of our children, grandchildren and friends participate in the success of our business. Our most enjoyable shooting sport is Cowboy Action Shooting, which Hank is a Life member of SASS #5164. His expertise includes having been a local club president, State and Regional Match Director, Territorial Governor and is a SASS Regulator. Hank and Dee are known as Slowpoke WY and Dazee Bristol in the SASS community. Recently our grandson Mike Thrush aka Waterboy has become our main representative at SASS matches around the country. Mike is also our manufacturing supervisor.

HARD-CAST BULLETS with THOMPSON BULLET LUBE
92% Lead, 6% Antimony & 2% Tin

BULLETS ARE SIZED AND LUBED

Please visit our web site www.cheycastbullets.com to place your order or call us to place your order if you are picking it up in Cheyenne.

We normally maintain a large inventory of all bullets that we make in stock. All orders are shipped by USPS priority shipping to all 50 United States. We offer FREE shipping on orders 2000 bullets or more. We have been shipping USPS priority since 2007 and find it to be the most economical and reliable method of shipping. If USPS tracking verifies that you have not receive your order within 2 weeks (30 days during the holiday seasons) from the date we shipped we will resend your order for free. We strive to ship all orders within two business days of receipt of your order. Special or extremely large orders may take additional time. We can ship a maximum of 66 pounds of bullets in one medium size USPS priority package; your order may ship in more than one box. Normally USPS priority shipping is delivered within 2-3 business days of shipping depending on your location. We are centrally located in the United States in Cheyenne, Wyoming.

For orders less than 2000 bullets the shipping cost would be \$15.95. If you want to try sample packs the shipping cost is \$8.95 for 1-3 sample packs shipped without any other bullets. You may add up to 3 sample packs to your order of other bullets for no additional shipping. If your total order, not including sample packs, is 2000 bullets or more your shipping is FREE.

Our GUARANTEE is absolutely NO BS. If for any reason you are not satisfied with our bullets you may return them for a 100% refund or exchange within 30 days. Even if you just ordered the wrong bullets, you can exchange them for the difference in price. Please return them to Chey-Cast Bullets, 1531 Otto Road, Cheyenne, WY 82001. **Return shipping cost is the responsibility of the customer. If you have any questions you may call us at 307-778-6636 or send us an email at cheycastbullets@gmail.com.**

SASS Hall of Fame inductee
Overall National and World Champion
In both Cowboy Action and Wild Bunch shooting.
40 World/National shooting championship wins

"I have decided to shoot Chey Cast bullets for several reasons. I have known Hank for many years and like him personally. He produces a high quality hard cast bullet which has a good reputation for consistency and quality at a fair price. He produces his bullets with the Hi Tek Super-coat process which the best coating process I am aware of. This coating totally encapsulates the bullet which reduces my exposure to lead from fired rounds and also from handling bullets while reloading. It replaces bullet lube which gums up my reloading equipment and firearms." Evil Roy

QUALITY MADE IN THE USA!

HARD-CAST BULLETS with HI-TEK SUPERCOAT BULLET COATING

We use a unique heat-set "HI-TEK Supercoat" manufactured by J&M Specialized Products P/L in Australia where it has been used for more than 20 years. The "HI-TEK Supercoat" Bullet Coating totally encapsulates the lead projectiles and replaces standard wax lube. Our bullets are "Hard-Cast." Hard cast bullets are just that: harder. We use a 92% Lead/6% Antimony/2% Tin bullet alloy for casting all bullets. We buy our bullet alloy directly from a local foundry that has the knowledge, equipment and experience to manufacture bullet alloy to exacting specifications.

"HI-TEK Supercoat" bullets are safe to shoot indoors and your dies will remain clean during the reloading process. Coated bullets produce lower velocities. The coating gives off no toxic out gassing or particulate matter when fired. The coating is absolutely nonabrasive and contains no PTFE or MOLY. There is no wax lube to gum up your loading dies and it minimizes your exposure to lead. The end result is cleaner air, cleaner hands, cleaner reloading equipment and cleaner guns.

You may special order any other bullet we manufacture with "HI-TEK Supercoat" Coating, but it will take a bit longer for you to receive your order. Our goal is to offer high performance, accurate bullets at competitive lead bullet prices.
